The FCXtreme Series provides reliable solid-state converters that are designed to provide aircraft ground power in “low profile” applications such as under passenger boarding bridges, in maintenance hangars, or on flight lines.

All models optimized and tested to perform a continuous output power rating with 200% overload capacity in 24/7 operations.

- Individual phase regulation, improved efficiency, and lower input current distortion
- Innovative, adaptive wave optimization and voltage stabilization
- Laminated bus design eliminates transient voltage surges for high performance and increased reliability
- Lightweight powder-coated steel enclosure with sealed electronics compartment superior to typical aluminum enclosures to reduce RF emissions
- Full-featured user interface with detailed troubleshooting menus added to the advanced diagnostic and logging system
- High contrast LED display with 16-button keypad and separate standalone controls to ensure ease of use for most frequent functions
- Standard RS485 Modbus communication and integration capability with available RJ45 Ethernet and Wi-Fi connection capability

UNIT PERFORMANCE

Suitable For:
Fixed and Rotary Wing Aircraft and All Other 400 Hz Applications

Through an innovative design, advanced diagnostic and logging systems, and rugged modular construction, FCXtreme Series products assure maximum power availability and minimal maintenance time.
INPUT POWER

Input Voltage 480VAC +/- 10% standard, other input voltages available
Input Frequency 60Hz +/- 1Hz standard, 50Hz optional
Input Phase Rotation Any (automatic phase lock)
Inrush Current None (soft start to rated power)
Protection Overload, short circuit, over voltage, temperature, access door interlock
Input THD <5% at rated load, <8% at any load

OUTPUT POWER

Output Power Rating 60kVA/60kW continuous
90kVA/90kW continuous
120kVA/120kW continuous
180kVA/180kW continuous

Output Frequency 400Hz, +/- 0.01% for any load condition
Output Voltage 200V L-L / 115V L-N – adjustable +/- 10%
Voltage Regulation +/- 1% Maximum
Voltage Recovery Meets or exceeds limits of MIL-STD-704F, typically less than 50 milliseconds with a 100% load change
Voltage Balance +/- 1% for balanced loads, +/- 2% for 25% unbalanced loads
Harmonic Content 1.5% max., 1% typical (line to line or line to neutral)
Overload Capacity 125% for one hour, 150% for 5 minutes, 200% for 20 seconds
Protection Overload, short circuit, over and under voltage per MIL-STD-704F, over temperature, isolation, aircraft 28VDC E/F interlock, access door interlock

MONITORING AND CONTROLS

Display 4 x 20 character backlit display and dedicated indicator lights, with LED configuration for harsh environments
Control 16-key matrix keypad for full control and monitoring, as well as dedicated stand alone push button controls for Start, Stop/Reset, and Output On/Off control for user friendly operation
Metering Full three-phase monitoring and display of input and output voltage, current, and frequency; built-in troubleshooting guide in display; dedicated elapsed time meter also provided

ENVIRONMENTAL

Enclosure NEMA 3R equivalent (IP22). Electronics area rated NEMA 4 (IP66)
Audible Noise Level Less than 65dbA typical @ 1m
Ambient Temp. Range Operating: -40˚C to +50˚C (-40˚F to +122˚F)
Humidity 0% to 100% without condensation
Altitude 0 to 3,000 meters (9,842 ft.) without derating
Wind Up to 201 km/hr (125/ mph)

MECHANICAL

Construction Lightweight powder coated steel enclosure over durable steel frame with sealed electronics compartment
Size 508mm high x 1524mm wide x 1270mm deep (23” x 60” x 50”)
Weight 60-90 Series: 725 kg (1,600 lbs)
120-180 Series: 943 kg (2,080 lbs)
Finish Standard color: traffic white (RAL 9016) powder coat, other colors available

CODES AND STANDARDS

Meets or Exceeds MIL-STD-704F BS2G-219 SAE ARP-5015 DFS-400

OPTIONS AND ACCESSORIES

28.5VDC Output with 600A rating
Wi-Fi communications integration
Cable retriever or cable hoist
Towable 4-wheel trailer, with cable racks
Dual or single cable racks
Output power cables
300% overload for 60/90 kVA units

Dual outputs
Bridge mounting brackets
Pantograph cable delivery system
Floor stand kit
Remote operators station(s)
Power usage monitoring
